Q3. Even Numbers

Question: Print all even numbers from 1 to N using recursion.

Input: A single integer N.

Output: Even numbers up to N in increasing order.

Example:

10 --> 2 4 6 8 10

Solution:

```
import java.util.*;
class Main {
    static void printEven(int n) {
        if (n < 2) return;
        printEven(n - 2);
        System.out.print(n + " ");
    }
    public static void main(String[] args) {
        Scanner sc = new Scanner(System.in);
        int n = sc.nextInt();
        printEven(n % 2 == 0 ? n : n - 1);
    }
}
```
