Q5. Sum N Natural Numbers

Question: Find the sum of the first N natural numbers using recursion.

Input: A single integer N.

Output: The sum 1 + 2 + ... + N.

Example:

```
5  -->  15
```

Solution:

```
import java.util.*;
class Main {
    static long sum(long n) {
        if (n <= 0) return 0;
        return n + sum(n - 1);
    }
    public static void main(String[] args) {
        Scanner sc = new Scanner(System.in);
        System.out.print(sum(sc.nextLong()));
    }
}
```
