Q8. Palindrome String

Question: Check whether a given string is a palindrome using recursion.

Input: A single string S (no spaces).

Output: "Palindrome" or "Not Palindrome".

Example:

madam --> Palindrome

Solution:

```
import java.util.*;
class Main {
    static boolean palindrome(String s, int left, int right) {
        if (left >= right) return true;
        if (s.charAt(left) != s.charAt(right)) return false;
        return palindrome(s, left + 1, right - 1);
    }
    public static void main(String[] args) {
        Scanner sc = new Scanner(System.in);
        String s = sc.next();
        System.out.print(palindrome(s, 0, s.length() - 1) ? "Palindrome" : "Not Palindrome");
    }
}
```
